**WELCOME** to the most important month of your life.

Take a deep breath and remember: this is meant to be fun!

May is nerve-racking: you don't want to get sick or injured, and you're unsure of what to do.

In the days leading up to the race, stay off your feet and out of the sun. Take a quick tour of the expo, get your number and leave. Try to do this at least 2 days before race day. Embrace the taper and don't run more than the programme recommends. Don't try any new equipment or nutrition on race day - stick to your plan and trust your training.

**GOOD LUCK!**
