## 2024 HAS ARRIVED, <br> BUT 9 JUNE STILL SEEMS A LONG WAY AWAY.

We're starting to up the ante this month: it's vital that you remain disciplined! Don't add extra training days or speed/hill work if the programme doesn't state it. If you overdo it, it will come back to bite you later in the programme. Remember to trust the process: there are many hours on the road that lie ahead!

Training days are interchangeable, if your club has Time Trials (TT) on a Tuesday or Wednesday, you can swap days.
*Training Paces: Start at the slower end of the training paces, and moving towards the faster end as you progress. Please note that the time trial and training paces times are a guide.
